Learning. Digital. Together.

Digital Drop-In, a pilot project from the fledgling social enterprise, Learning. Digital. Together., involved a series of intergenerational workshops hosted by Skibbereen Community School between September and November 2023.

Facilitated by Dr Sandra Flynn, using a model of facilitated informal learning, older adults engaged with volunteer mentors from Transition Year to exchange knowledge and develop digital literacy skills across a variety of mobile devices and applications.

Whatever the skill level, from novice to improver, the one-to-one learning exchanges meant that participants truly engaged in the principles of intergenerational learning: learning from one another, learning with one another, learning about one another. A nice close out was the presentation of certificates of participation by mentors to their learners.

Next steps include the development of a library of resources for the website https://learningdigitaltogether.com from the content covered during the workshops.

Waterford to Offer Private Homeowners Option of 'Rightsizing' into Council Houses

Independent.ie

Waterford is to consider offering private homeowners the option of 'rightsizing' into Council properties.

This coming week, Waterford City and County Council, at its Monthly Plenary Meeting will vote on a proposal from its Housing Strategic Policy Committee to approve the roll-out of 'rightsizing' for private homeowners.

Rightsizing has been an approved policy of the Council for over a year now in which tenants of Council properties, if they feel they are in a home that is now too large for them, seek to essentially swap it for a smaller, more manageable property.

'Rightsizing' took off in Waterford as an idea when the Council began offering 'older person' specific communities such as the old St Joseph's nursing home (above), run by the Little Sisters of the Poor on Bunkers Hill, according to ClIr Eamon Quinlan.

Dementia Inclusive County

The Cavan Branch of the Alzheimer Society of Ireland is embarking on a ground-breaking initiative to transform Cavan into the first Dementia-inclusive County in Ireland.

This ambitious project aims to foster an environment where individuals living with dementia can thrive supported by a network of understanding and compassionate community members.

Dementia affects thousands of lives, not only for those diagnosed but also for their families and friends. By spearheading this initiative our Cavan Branch seek to raise awareness about dementia, challenge stigma and create a more inclusive society. The project would involve educational programmes, community outreach, sports clubs and partnership with local businesses to enhance understanding and adapt public spaces to better accommodate the needs of individuals living with dementia. The vision is not just to provide support but to build a community where everyone feels valued and included through collaborative efforts.

The Alzheimer Society of Ireland aims to set a precedent for other regions to follow, fostering a national involvement towards Dementia Inclusive Communities. Together we can make County Cavan a shining example of empathy, understanding and unity in the face of Dementia.

We plan to hold a series of three Public Information Meetings in each Municipal District of County Cavan starting with Cavan-Belturbet.

Our first meeting will be held in the Townhall, Cavan on Wednesday 20th March at 7.30pm. Please come and join us...Business people, sports clubs, men's and hen's sheds, pharmacies, Colleges, young people, groups, clubs, employers, families and friends.

There are almost 2000 people in Cavan diagnosed and yet to be diagnosed with Dementia and the numbers are expected to double over the next 25 years. We do not ask people to serve on Committees, donate money or even commit their time but would love to form a database of "Friends of the ASI" who will receive information and ways in which they may like to become involved.

The people of County Cavan have shown enormous goodwill to our Branch for almost 14 years now. We have come a long way with our Services but now

information is the key. Let us join together and make our County truly Dementia Inclusive. Please join us in the Townhall on March 20th.
